RESOLUTION

Ratings .....25 cts. each
Unless such fee accompanies request for this service the item will be returned without presentation or attention. This rule does not apply to Drafts with Bills of Lading attached, or to Notes."

For Safe Checks

The paper which is used in binding this directory is National Safety Paper. You will recognize it always by the anchor emblem, shown above, and by the wavy lines which cover both sides of the sheet.

This paper is more widely used for checks than any other brand. This is because any attempted alteration by knife, acids, alkalis, or other bleaching agents produces a conspicuous white spot or stain in the paper, rendering the fraud easily and instantly detectable.

National Safety Paper can be furnished by your regular printer or lithographer.
